

HONOLULU POLICE DEPARTMENT
2010
ANNUAL REPORT

"Making Honolulu the safest place to live, work, and play."

MISSION

We, the men and women of the Honolulu Police Department, are dedicated to providing excellent service through partnerships that build trust, reduce crime, create a safe environment, and enhance the quality of life in our community.

We are committed to these principles:

INTEGRITY

We have integrity. We adhere to the highest moral and ethical standards. We are honest and sincere in dealing with each other and the community. We have the courage to uphold these principles and are proud that they guide us in all we do.

RESPECT

We show respect. We recognize the value of our unique cultural diversity and treat all people with kindness, tolerance, and dignity. We cherish and protect the rights, liberties, and freedoms of all as granted by the constitutions and laws of the United States and the State of Hawaii.

FAIRNESS

We act with fairness. Objective, impartial decisions and policies are the foundation of our interactions. We are consistent in our treatment of all persons. Our actions are tempered with reason and equity.

... in the spirit of Aloha.

Message From the Mayor

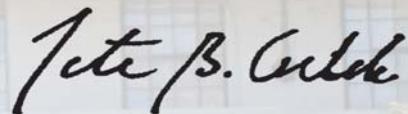

It gives me great pleasure to present the 2010 Annual Report of the Honolulu Police Department (HPD) and congratulate this organization for its dedication and unwavering commitment to the people of the City and County of Honolulu and for its contributions to making Honolulu one of the safest big cities in the United States.

This annual report documents the activities and accomplishments of one of the finest police forces in the nation, certified by the Commission on Accreditation for Law Enforcement Agencies.

The report also details the initiatives and challenges of our law enforcement who are charged with the broad task of safeguarding and preserving this special island.

I commend the HPD for its outstanding performance of duty by protecting lives and property 24 hours a day, fighting crime, ensuring homeland security, promoting safe behavior and providing our keiki with excellent crime prevention and educational programs.

I salute the HPD for another outstanding year in which they have displayed the best qualities of public service and inspired us with their courage, integrity, and personal sacrifice.

A handwritten signature in black ink that reads "Peter B. Carlisle".

PETER B. CARLISLE, Mayor
City and County of Honolulu

The Honolulu Police Commission is made up of seven members who are appointed by the Mayor and confirmed by the City Council. All members serve staggered terms of five years. They volunteer their services and do not receive any compensation.

A chair and vice chair are elected from within its membership every year. The commission chairs for 2010 were Ms. Christine H. H. Camp and Mr. Marc C. Tilker. Mr. Tilker also served as vice chair for the first part of the year. Mr. Craig Y. Watase served as vice chair for the second part of the year.

The commission has the following mandated responsibilities:

- appoints and may remove the Chief of Police;
- evaluates the performance of the Chief of Police at least annually;
- reviews rules and regulations for the administration of the Honolulu Police Department;
- reviews the annual budget prepared by the Chief of Police and may make recommendations thereon to the Mayor;
- compares at least annually the actual achievements of the police department with the goals and objectives in the five-year plan; and
- receives, considers, and investigates charges brought by the public against the conduct of the department or any of its members and submits a written report of its findings to the Chief of Police.

Message From the Chief

At the end of my first year as Chief of Police, our employees' response to new directions and programs left me encouraged and excited to take on the challenges that are critical for positive change. I am pleased to report that there was an overall five percent decrease in index crimes this past year.

Initiatives were taken to fulfill strategic outcomes for the next five years as established in the newly introduced HPD 2015, A Strategic Plan for Guiding the Honolulu Police Department Through the Year 2015.

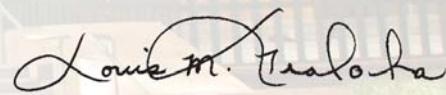

To address the "safer traffic" strategic outcome, the Traffic Division initiated a night-time patrol for pedestrian safety, seatbelt use, operating a vehicle under the influence of an intoxicant (OVUII), etc. Enforcement during this period resulted in 427 citations for seatbelt violations, 254 citations for use of a mobile electronic device while operating a motor vehicle, and 35 OVUII arrests.

We began assessing energy use and costs throughout the department as well as developing approaches to increase efficiency in these areas. This effort is only the first step toward becoming a more environmentally conscious organization.

Advancements are only as successful as the foundation on which they are built. Therefore, the HPD 2015 also calls for the department to refocus on existing core areas of operations: organizational effectiveness and efficiency, employee relations, community relations, and customer service.

Progress is gradual but promising. The commitment exhibited by each member of our police "family" will enable our department, even under the most challenging circumstances, to achieve that goal deserving of any community: Making Honolulu the safest place to live, work, and play.

Serving and Protecting with Aloha,

LOUIS M. KEALOHA

Organizational Chart

2010

HONOLULU POLICE ADMINISTRATION

HPD 2015

HPD 2015 was developed by Chief of Police Louis M. Kealoha as a strategic plan to guide the Honolulu Police Department through the year 2015. It presents a clear vision and direction for the department while building on the mission's core values and principles of providing leadership foundation and framework for strategic planning. The core areas are organizational effectiveness and efficiency, employee relations, and community relations and customer service.

HPD 2015 focuses strategies and efforts to achieve outcomes - shared results for the entire department and the community to work toward:

1. **The lowest crime and the least fear.** Lead the nation with the lowest overall crime rate among the largest 50 cities by 2015 and increase the degree to which both residents and visitors experience Oahu as free from crime, fear, and disorder.
2. **Faster chronic problem solving.** Reduce the number of chronic crime and disorder location complaints that have persisted more than one month past the first call.
3. **Safer traffic.** Reduce the rate and severity of traffic collisions.
4. **Better community partnerships.** Document an increased effectiveness in HPD police-community partnerships.
5. **A better place to work.** Increase the degree to which employees experience the HPD work environment as fair, customer oriented, aligned with the mission, and supportive of career development.
6. **Less organizational complexity.** Document implementation of changes that improve management efficiency, including a net reduction or consolidation of management layers where appropriate.
7. **Better information access.** Demonstrate department-wide improvements in access to and use of timely, actionable intelligence and management information.
8. **Quicker technological adoption.** Document improvements in organizational ability to more rapidly implement appropriate new technologies that can benefit employee safety, workload, time management, and accountability.
9. **Enhanced security partnerships.** Document enhancements in preparedness for major events and major emergencies in partnership with public agencies and private organizations.
10. **More environmentally conscious.** Cause a substantive net reduction in HPD-generated waste and energy use.

HPD 2015 Accomplishments

Progress that was made in 2010 on strategies established in the HPD 2015 is highlighted below:

- The Honolulu Police Department became a collaborative partner in the Pacific Regional Intelligence Clearinghouse, Hawaii's multiagency fusion center, to address crimes and harms to the community in the State of Hawaii.
- Intelligence-led policing was implemented to gather data and use intelligence to guide operations and resource development.
- Traffic management partnerships were improved, strengthening collaborative relationships and supporting innovations in engineering to improve traffic safety.
- Online communications with the community were expanded. The department's Web site was improved to provide more information; encourage crime prevention; and promote community, problem-solving resources.
- Online service options for the community were improved through enhanced crime mapping information services, online analysis of neighborhood crime trends, and online reporting of security concerns.
- A career center was implemented for developing employee potential. Improved career development was supported by expanding opportunities for online education, improving career planning assistance, and identifying ways to support ongoing education.
- An Asia-Pacific Economic Cooperation (APEC) Planning Group was formed to prepare for the APEC meetings in 2011. Planning was initiated to ensure a safe and uninterrupted event, strengthen preparedness, conduct joint training and exercises, and build partnerships with other agencies and the community.
- Office and in-the-field practices were reviewed to identify potential improvements in energy efficiency and recycling efforts. The introduction of hybrids and other fuel-efficient vehicles; technology which adds new work processes to a paperless, digital environment; and campaigns to increase environmental awareness resulted in a net reduction in fuel and paper consumption and a net increase in recycling.
- Project Community Lokahi to Enrich our Aina Now (CLEAN) was launched to restore the beauty and quality of life in our communities. Project CLEAN is a partnership that focuses on neighborhoods around the island. Volunteers from the community, police, and city workers band together to eradicate graffiti, remove rubbish and derelict vehicles, and address chronic issues. This is an ongoing commitment that will continue through 2011 and beyond to build community pride and express our shared devotion to improving our neighborhoods and love for the land that is our home.

The HPD 2015 is a five-year commitment to achieving the outcomes that will make Honolulu the safest place to live, work, and play.

Powers, Duties, and Functions

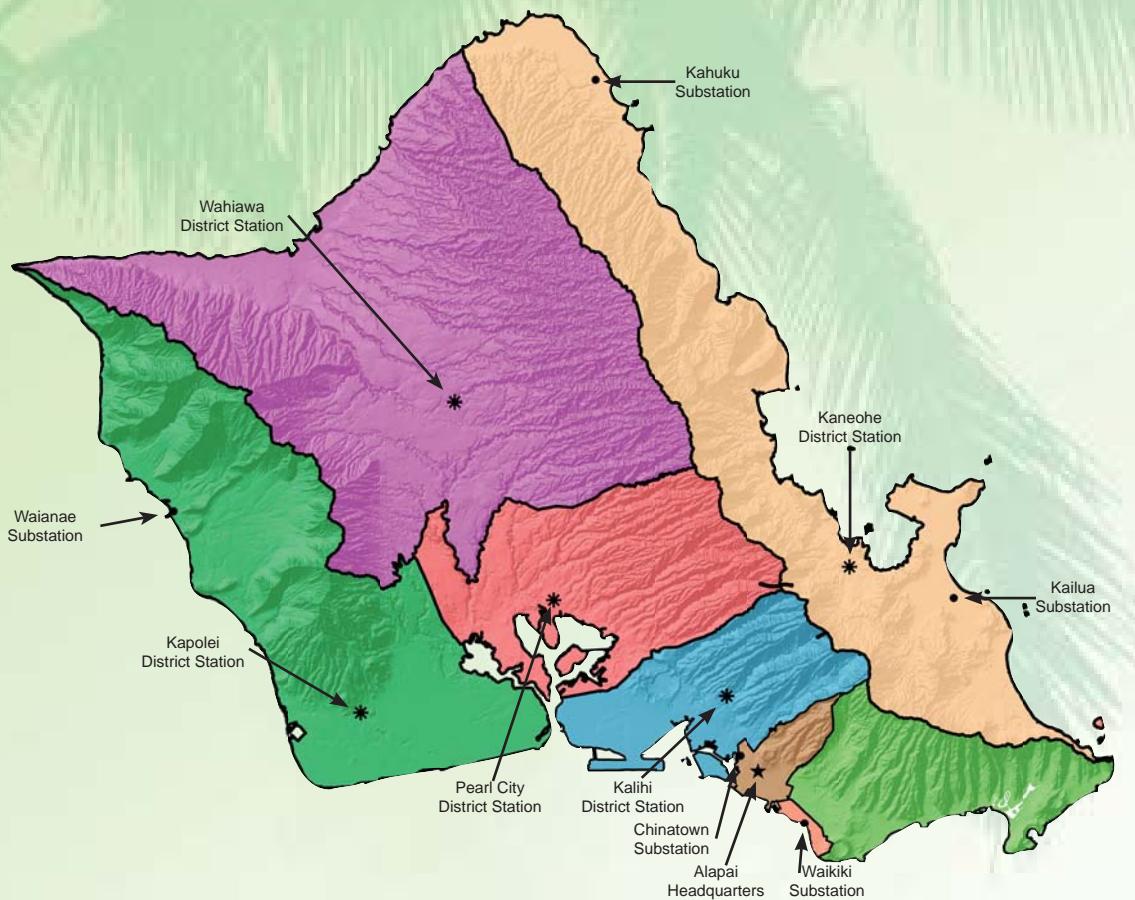

The Honolulu Police Department serves as the primary law enforcement agency for the entire island of Oahu.

The Chief of Police directs the operation and administration of the department and is responsible for the following:

- preservation of the public peace;
- protection of the rights of persons and property;
- prevention of crime;
- detection and arrest of offenders against the law;
- enforcement and prevention of violations of state laws and city ordinances; and
- service of processes and notices in civil and criminal proceedings.

The department's jurisdiction is the City and County of Honolulu. It includes the entire island of Oahu, which has a circumference of about 137 miles and an area of some 596 square miles. The estimated resident population is about 905,034, which includes military personnel but not tourists.

For police operations, the island is divided into eight patrol districts; each district is subdivided into sectors and beats. The department's headquarters is at 801 South Beretania Street in downtown Honolulu. District stations are found in Kalihi, Pearl City, Kapolei, Wahiawa, and Kaneohe. Other facilities are identified on the map below and in the narrative parts of the report.

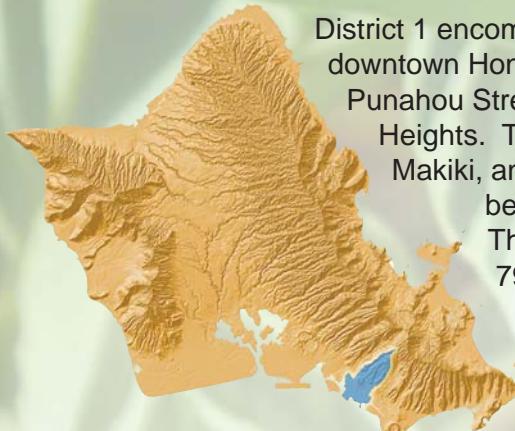

FIELD OPERATIONS

Field Operations

District 1

District 1 encompasses nearly eight square miles in downtown Honolulu, spanning from Liliha Street to Punahoa Street, and from the Pacific Ocean to Pacific Heights. The district also includes Pauoa Valley, Makiki, and the Tantalus area. District 1 has 24 beats which are divided into four sectors. The residential population is approximately 79,000.

As the retail, financial, and political center of the State of Hawaii, the actual number of people in the district at any given time is much greater. The district's

main office is located at the Alapai headquarters at 801 South Beretania Street. A Chinatown substation is located at 79 North Hotel Street.

On June 5, 2010, 352 community members and 74 Honolulu Police Department (HPD) personnel worked together to cleanup downtown Chinatown and its surrounding neighborhood with a Community Lokahi to Enrich our Aina Now (CLEAN) project. Chinatown is one of the oldest sections of downtown Honolulu. Its placement on the National Register of Historic Places reflects the area's historic and architectural importance to the City and County of Honolulu.

In 2010, 1,021 citations and 199 Traffic Safety Awareness Contacts (TSAC) were issued for speeding. Officers also issued 2,367 citations and 505 TSACs as a part of the pedestrian enforcement effort this past year. District personnel continued their aggressive campaign to address impaired drivers with 872 arrests for Operating a Vehicle Under the Influence of an Intoxicant.

District 2

District 2 encompasses 204 square miles of Central Oahu, including the neighborhoods of Mililani, Mililani Mauka, Wahiawa, Whitmore Village, Waialua, Mokuleia, Haleiwa, Wheeler Army Air Field, and Schofield Barracks, with a population of approximately 109,000. The district's headquarters is located in Wahiawa at 330 North Cane Street.

During the year, the district acquired two message boards and one speed trailer. The equipment has been successful in managing traffic and slowing drivers down where speeding occurs frequently.

Since January 2010, the district has added four new Neighborhood Security Watches (NSW) with approximately 150 members. The district has over 350 NSW programs covering 6,000 households.

Throughout the year, officers issued 5,009 speeding citations and 307 warnings. The district also made 148 arrests for Operating a Vehicle Under the Influence of an Intoxicant, an increase of 23 percent over 2009. There were four fatalities in 2010, compared to seven in 2009. A Community-Traffic Awareness Partnership project was held at Whitmore Avenue on April 22, 2010, to increase police presence in the community.

Field Operations

District 3

District 3 covers a geographical area of about 66 square miles and includes the communities of Pearl Harbor, Halawa, Aiea, Pearl City, Waipio, Kunia, Waikale, and Waipahu.

The district has a population of about 151,000 residents represented by four neighborhood boards. In 2010, there were a total of 80,971 calls for service.

In 2010,
the District
Property
Crimes Task

Force, comprised of Crime Reduction Unit officers and two detectives, was initiated to stem the sudden increase in burglaries and Unauthorized Entry into a Motor Vehicle (UEMV) incidents in the district. In the second half of 2010, burglary cases rose only seven percent, and UEMVs fell by seven percent as compared to the same time period in 2009.

During the year, the district participated in a Community Lokahi to Enhance our Aina Now (CLEAN) project. The department partnered with over 500 community participants to cleanup the Pupuole Street and Aniani Place areas of Waipahu, as well as conduct graffiti paint-outs throughout Waipahu.

District 4

District 4 encompasses nearly all of Windward Oahu. Its boundary extends from Makapuu Point, along the shoreline past Turtle Bay to the mouth of the Waialei Stream, southeast to the Waianae/Waialua district boundary, and southeast along the Koolau Mountain Range. The district has an area of 136 square miles and includes the communities of Waimanalo, Lanikai, Kailua, Kaneohe, Kahaluu, Kaaawa, Hauula, Laie, and Kahuku. The residential population is estimated at 128,000. The main police station is located at 45-270 Waikalua Road. There are two full-service substations; the Kahuku Substation is located at 56-470 Kamehameha Highway, and the Kailua Substation is located at 219 Kuulei Road.

In April 2010, the district hosted the Windward Aloha No Na Kupuna event at the Waimanalo District Park. The event was aimed at educating our seniors on

topics covering traffic and pedestrian safety, avoiding identity theft, avoiding telephone or mail scams, and health and wellness.

Throughout the year, District 4 personnel took an active approach to address illegal camping and homeless people living in the neighborhood parks. The district conducted 15 park cleanups with the

City Department of Parks and Recreation. Officers issued 69 illegal camping citations; 113 vehicle in-park, after-hours citations; and 168 park closure citations.

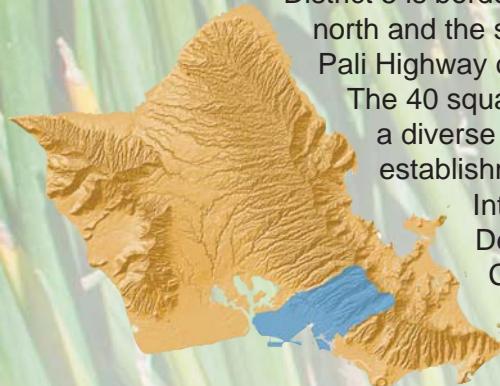

District 4 is continuing its work with the Marine Corps Base Hawaii and the City Department of Parks and Recreation to develop a memorandum of agreement to allow ongoing use of the Bellows Field Beach park by the community.

The district's Community Policing Team worked with members of the community to increase the number of Neighborhood Security Watch groups. Their efforts resulted in the addition of 232 new groups and 2,427 new members.

Field Operations

District 5

District 5 is bordered by the Koolau Mountain range on the north and the shorelines of the Pacific Ocean on the south, Pali Highway on the east, and Aliamanu Crater on the west. The 40 square miles that make up District 5 is home to a diverse community of residential and commercial establishments, including Honolulu Harbor, Honolulu International Airport, United States Federal Detention Center, Oahu Community Correctional Center, and military installations (Hickam Air Force Base, U.S. Coast Guard Base Sand Island, and Fort Shafter). Honolulu's major highways, the H-1 Freeway, Moanalua Freeway, and Nimitz Highway, are traveled by thousands of commuters daily. The district contains 16 public housing complexes with 2,444 units, which is 39 percent of the total public housing in the state. In addition, there are over 1,000 military housing units as well. The residential population of the district is approximately 141,000.

In 2010, District 5 officers responded to 79,056 calls for service. This is a decrease of 2.5 percent from 81,116 in 2009. During the year, officers participated in several traffic safety projects, including speed enforcement, seat belt violations, and drivers using mobile devices. A total of 8,738 citations were issued for these infractions.

On October 5, 2010, Acting Mayor Kirk Caldwell signed Bill 34 into law restricting the possession, sale, and use of most consumer fireworks. As the bill would take effect on January 2, 2011, the department anticipated a high volume of illegal fireworks around New Year's Eve. A total of 30 citations were issued, along with four arrests for fireworks-related offenses, and 97 pounds of illegal fireworks were confiscated.

During the year, the District 5 Burglary-Theft Detail worked closely with other Burglary-Theft Details and Crime Reduction Units to arrest a major crime figure in a commercial burglary series that plagued the island of Oahu in the last two years.

Since the district took responsibility of juvenile runaway cases in September 2010, an officer who was assigned 100 cases returned 96 juveniles to their parents or guardians.

District 6

District 6 encompasses the Waikiki peninsula, which is approximately 1.5 square miles bordered by the Ala Wai Canal, slopes of Diamond Head, and the Pacific Ocean.

Command and administrative offices are located at the Alapai headquarters. Patrol personnel are stationed at both the Alapai headquarters on Beretania Street and the Waikiki substation on Kalakaua Avenue fronting Waikiki Beach. The Burglary-Theft Detail and Crime Reduction Unit offices are located at Diamond Head Road and 22nd Avenue.

In 2010, District 6 personnel partnered with the Australian Consulate to conduct

four safety orientations at Pearl Harbor and Ford Island to hundreds of Australian Navy personnel during the RIMPAC exercises. These exercises provided valuable information that reduced exploitation of military personnel during their on-leave time spent in Waikiki.

During the year, District 6 personnel generated 6,667 police reports and made a total of 1,167 arrests. Officers also participated in a Waikiki beach cleanup in conjunction with the Waikiki Business Improvement District.

With the new tent and shopping cart law that went into effect in 2010, there was a significant reduction in the number of illegal campers and homeless population in parks and beaches.

A Pedestrian Safety Enforcement/Education Program conducted in December 2010 resulted in 828 warnings and 558 citations being issued. In addition, a pedestrian sign-waving project was conducted with Jefferson Elementary School.

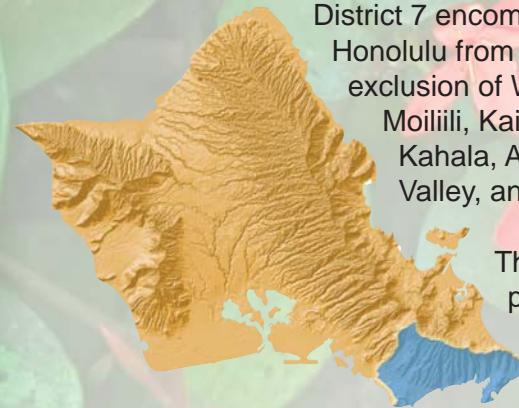

With two teams covering day and night shifts, the Crime Reduction Unit (CRU) had the flexibility to assist each other, patrol officers, and the Burglary-Theft Detail. Throughout 2010, officers of the CRU effected 156 felony arrests, 168 misdemeanor arrests, and 256 warrant arrests.

Field Operations

District 7

District 7 encompasses about 40 square miles in East Honolulu from Punahou Street to Makapuu Point, with the exclusion of Waikiki. The area includes Manoa, McCully, Moiliili, Kaimuki, Palolo, Diamond Head, Waialae, Kahala, Aina Haina, Kuliouou, Hawaii Kai, Kalama Valley, and Sandy Beach.

The area is primarily residential with a population of approximately 147,000. Also included are several institutions of higher learning, including the University of Hawaii at Manoa, Chaminade University, and Kapiolani Community College. Many of

Honolulu's primary and secondary private schools make their home in the district. The administrative offices are located at the Alapai headquarters.

The district's Burglary-Theft Detail actively investigated 496 cases with leads and closed 293 of those cases. Cooperation between the detectives of the detail, the All-terrain Vehicle Detail, and Crime Reduction Unit (CRU) resulted in the arrests of multiple suspects involved in drug-related crimes.

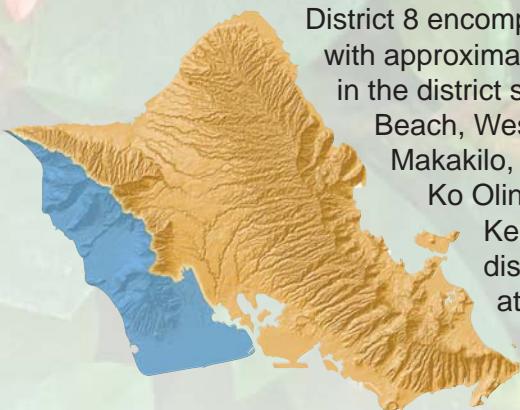

In August 2010, the CRU organized a task force to address increasing complaints of drug dealing in several parks. As a result, 20 individuals who were selling crystal methamphetamine were identified and arrested, and they were charged with 26 offenses.

Implementation of a "saturation patrol" program in 2010 included a Web page on the Honolulu Police Department intranet which serves as a message board to exchange information amongst all officers. Extensive use of the message board by officers within and outside the district helped to identify suspects and focus policing efforts.

District 8

District 8 encompasses a land area of 128 square miles with approximately 38 miles of coastline. Personnel in the district service the communities of Ewa, Ewa Beach, West Loch, Kalaeloa (Barbers Point), Kapolei, Makakilo, Campbell Industrial Park, Honokai Hale, Ko Olina, Nanakuli, Maili, Waianae, Makaha, Keaau, Makua, and Kaena Point. The district's headquarters is located in Kapolei at 1100 Kamokila Boulevard, and there is a substation in Waianae located at 85-939 Farrington Highway.

During the year, officers in the district were tasked with addressing issues, such as prohibited noise, mobile electronic device violations, park rules violations, illegal camping prohibitions, and open container violations.

There were 515 prohibited noise citations, 870 mobile electronic device violation citations, 186 illegal camping citations, and 19 open container violation citations issued.

On August 8, 2010, District 8 held its inaugural Community Lokahi to Enrich our Aina Now (CLEAN)

project in the city of Kapolei. The event was a collaborative effort between various community groups and Neighborhood Security Watch groups in the district. Approximately 200 citizens and departmental personnel participated in trash pickup and graffiti paint-outs along Kamokila Boulevard.

In 2010, the district worked with the City Department of Transportation Services, City Department of Emergency Management, and the State Department of Education to develop school emergency response plans for major incidents. The planning and testing for this pilot program was funded by a grant from the U.S. Department of Justice.

8
District

Field Operations

Central Receiving Division

The Central Receiving Division (CRD) is responsible for processing and detaining arrestees safely and securely. Custodial care is also provided for all arrestees who are unable to post bail or under investigation for a felony offense. Arrestee processing includes screening for compliance with pertinent laws, such as registration of sex offenders and DNA submittal of convicted felons. The CRD is also responsible for the safety and security of the Alapai headquarters. In addition to screening visitors, officers monitor and control access to the building and parking structure.

During 2010, the CRD processed 16,541 adult and juvenile arrestees, provided over 44,800 meals, and transported approximately 8,628 arrestees to court detention facilities.

Over the year, CRD personnel made 623 arrests and initiated 3,234 police reports. The division is responsible for maintaining the department's Intoxilyzer 8000 breath test instruments and records for over 500 certified operators.

The CRD has worked with the Professional Bail Agents Association of Hawaii and the State Department of Public Safety to standardize bail bond policies and surety issues. This has led to improved service for pretrial detainees and streamlined procedures regarding the discharge of surety

where the bond needs to be revoked for safety and security issues.

The division worked with other city agencies to implement the Access Control and Monitoring System (ACAMS) for the Alapai headquarters.

The ACAMS project is a citywide program that will eventually be installed in all city and county buildings on Oahu. This system will allow for better monitoring and control of critical access points and areas throughout the building. Installation began in late 2010, and the project should be completed by mid 2011.

INVESTIGATIVE BUREAU

Investigative Bureau

Criminal Investigation Division

The Criminal Investigation Division consists of eight details which investigate cases involving murder, robbery, sexual assault, domestic violence, child abuse, financial fraud and forgery, auto theft, and white collar crimes. In addition to preparing investigations for criminal prosecution, the division strives to increase public awareness by partnering with other law enforcement agencies and community organizations, such as the Domestic Violence Clearninghouse and Children's Justice Center.

Of the 23 homicides investigated by the division's Homicide Detail in the past year, all but one of these cases were closed. This translated to a 96 percent closing rate for the detail in 2010. In addition, the detail investigated 738 Unattended Death cases and 112 homicide-associated cases.

Working closely with the Homicide Detail, the Missing Persons Unit investigated 711 cases in 2010, closing nearly 98 percent of them. These cases included 189 cases of individuals afflicted with Alzheimer's disease or other mental disorders.

A cold case review of all homicides from 1970 to present was implemented. The review included the physical reorganization of the cases as well as a review of the cases to ensure that all possible investigative strategies were maximized. A database of all of the cases was also developed so investigators could quickly determine exactly what investigative actions and forensic tests were conducted.

Narcotics/Vice Division

The Narcotics/Vice Division (NVD) conducts investigations that lead to the disruption and dismantling of organizations involved in illegal drugs, prostitution, pornography, and gambling. To achieve these goals, the division is divided into teams of officers who receive specialized

training and carry out specific duties while conducting investigations.

In 2010, the High Intensity Drug Trafficking Area Task Force seized 25.8 pounds of methamphetamine, 8.8 pounds of processed marijuana, and 2,400 marijuana plants. The street value of these drugs is \$4,534,600. The task force also seized \$44,098 in U.S. currency.

The Rapid Reduction Drug Unit (RRDU) task force, comprised of NVD officers and investigators from the Drug Enforcement Administration, focuses on organized, gang-related, street-level drug rings. In 2010, the RRDUs efforts resulted in 13 arrests for drug-related offenses. Also, the unit seized 3.2 pounds of methamphetamine, 65.5 grams of cocaine, and 39 grams of black tar heroin that have a collective estimated street value of \$458,495.

The Hawaii Interagency Mobile Police Apprehension Crime Task Force (HI-IMPACT) is comprised of federal and county law enforcement officers. The HI-IMPACT is primarily responsible for conducting long-term drug investigations. The investigations focus on high-level drug trafficking organizations and individuals who are affiliated with local and mainland organized crime networks.

Investigative Bureau

The Hawaii Airport Task Force (HATF) conducts parcel and passenger interdiction investigations throughout Hawaii to disrupt drug smuggling into the state. The HATF seized illicit drugs with an estimated street value of \$13,694,738 and \$247,030 in U.S. currency. For their efforts, they were named HPD's 2010 Unit of the Third Quarter.

Scientific Investigation Section

The Scientific Investigation Section (SIS) provides investigative support through the application of forensic science.

Funding to hire three criminalists on a contract basis for the Forensic Biology Unit was obtained when the section secured two federal grants:

the 2010 Convicted Offender/Arrestee DNA Backlog Reduction and the 2010 Forensic DNA Backlog Reduction. A portion of the \$310,740 total award has been allocated toward the procurement of associated DNA analysis kits and equipment.

Installation of an image authentication, encryption, and storage system called VeriPic® was installed in the SIS in the second phase of the section's conversion to digital photography for all crime scene and case-related investigations.

The VeriPic® system will provide improved security of digital images through an enhanced image authentication feature which is not available under the current storage method.

In line with the City Council's approval for a ban on consumer fireworks, effective January 2, 2011, the Trace Evidence Unit was tasked with the review of existing analysis policies and procedures to ensure current laboratory standards would be met. The comprehensive reviews with necessary training updates were completed, and the unit began accepting cases for pyrotechnic explosive analysis in November 2010.

Investigative Bureau

Traffic Division

The Traffic Division investigates certain motor vehicle collisions and promotes the safe and efficient movement of traffic on public roadways through educational and community programs. In addition, the division gives presentations on traffic safety and enforcement laws to the community.

Night Occupant Protection Enforcement (NOPE) operations began in February 2010. At various checkpoints, plainclothes officers surveyed passing vehicles for seatbelt and child restraint violations. Once identified, uniformed officers stopped and cited violators. In 2010, 13 NOPE operations resulted in the issuance of 536 citations.

Plainclothes officers in the Saving Pedestrians and Motorist (SPAM) project posed as pedestrians at marked crosswalks and cited motorists and pedestrians who failed to comply with the pedestrian laws. Throughout 2010, 16 SPAM operations resulted in 965 citations, of which 432 were for motorists failing to yield to pedestrians and 39 for jaywalking pedestrians.

In September 2010, the division partnered with the State Department of Education and other county police departments to coordinate a statewide education/enforcement effort during National Child Passenger Safety Week.

Officers checked elementary schools during drop off and pick up times to ensure that child passengers were properly restrained. A total of 51 public and private elementary schools on the island of Oahu were visited, and 132 warnings and 155 citations were given.

The division also participated in the Keiki in Safe Seats (KISS) project. This project attempts to identify drivers who are not safely transporting their children by offering to ensure their child safety seat is properly installed in their vehicle. In 2010, the division conducted three KISS operations which resulted in 109 child safety seat inspections. Furthermore, the Traffic Division was able to provide 28 child safety seats to needy families with aid from federal grant monies.

ADMINISTRATIVE BUREAU

Administrative Bureau

Community Affairs Division

The Community Affairs Division (CAD) is responsible for the department's community relations and special awards and projects. These responsibilities include the management of the department's museum and facilitating the assignment of speakers requested by various organizations. In 2010, the Speakers Bureau coordinated 771 requests for Honolulu Police Department (HPD) speakers and/or presentations.

During the year, the HPD museum saw more than 900 walk-in visitors and another 550 individuals who participated in 20 tours conducted by CAD personnel.

On December 8, 2010, retired Major Marc Greenwell donated a 1938 Indian Scout motorcycle to the HPD museum. This motorcycle is the same model used by HPD officers in the 1930s and 1940s.

In 2010, the division implemented a literacy program in certain preschools. Students from Kamehameha Schools and Farrington High School were approached via their school counselors to see if they would be willing to volunteer to read to children at designated preschools. Volunteer students would be afforded an opportunity to fulfill their community service requirements while contributing to the development of children in the community.

The pilot program began at Lanakila Head Start with 32 Kamehameha and Farrington High School students reading to 60 Head Start children twice a week. The program proved to be successful, and other schools have since indicated their interest in participating in 2011.

Community Affairs Division personnel were instrumental in planning and implementing the Chief's Civilian Employee Appreciation Day for departmental employees. Activities held in June and November conveyed support and special recognition of civilian personnel. The events were cosponsored by the State of Hawaii Organization of Police Officers, Hawaii Law Enforcement Federal Credit Union, and Honolulu Police Relief Association.

Administrative Bureau

Finance Division

The Finance Division ensures the accountability and integrity of the department's budget and related processes by coordinating, developing, and overseeing the annual operating budget of \$224 million for fiscal year 2010. The operating budget covers personnel, current expenses, and equipment.

To support the environmentally responsible treatment of office waste, the division's Property and Supply Section recycled a total of 5,701 pounds of computer-related waste and 2,485 pounds of metal. Another ecologically conscience effort by the division was its securing of cost savings to fund the acquisition of 25 additional hybrid police vehicles.

By maintaining the American Recovery and Reinvestment Act grant, the division played a critical role in the addition of 21 new officers. These officers are in the final stages of their training and will soon enhance the department's community policing efforts.

Human Resources Division

The Human Resources Division (HRD) is responsible for administering all personnel matters, including recruitment, background checks, hiring, performance evaluations, special duty jobs, and investigations for sexual harassment/discrimination complaints.

Over 1,730 individuals were processed by the HRD in 2010. As a result, the department hired 15 police radio dispatchers, 4 parking violations clerks, 90 metropolitan police recruits, 35 contract hires, and 40 volunteers (e.g., reserve police officers).

In 2010, the division's Career Center participated in over 21 career fairs and speaking engagements for recruiting purposes. The department's Web site was updated with information to afford potential employment candidates to easily access employment and general human resource information.

Administrative Bureau

The Special Duty Section implemented the System-Based Assignment program for a more equitable distribution of special duty assignments. This system made it easier and much more efficient for vendors to obtain officers for emergency jobs.

Legislative Liaison Office

The Legislative Liaison Office (LLO) is responsible for coordinating all legislative matters that affect departmental operations. During the 2010 legislative session, the LLO reviewed more than 3,600 bills and resolutions and assigned over 300 of them. In addition, the LLO tracked bills and resolutions that were presented before the City Council. As of December 2, 2010, the office reviewed over 435 such bills and resolutions and assigned over 50 of them.

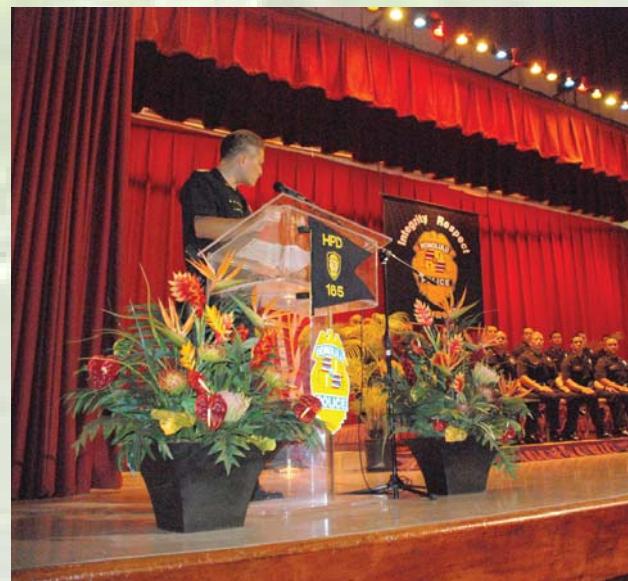

Processes were improved so that accessibility to legislative information and forms is easier and more understandable. The office also provides current information on all state law changes to county police departments as well as to all departmental personnel via the intranet newsletter, He Aha Ka Mea Hou.

Training Division

The Training Division is located at the Ke Kula Maka'i Training Academy at 93-093 Waipahu Depot Street. The division focuses on four main areas: recruit training, annual recall training, executive training, and specialized training for personnel in units requiring specific skills.

During the year, a total of 46 new officers graduated from the 164th and 165th recruit classes. In addition, three new recruit classes were started in 2010. The 13th Reserve Officer class graduated five officers.

Also, through the division's efforts this past year, 1,859 officers completed the Annual Recall Trainings I and II, and 1,958 officers completed the annual firearms qualification. The division also implemented a new Fit for Life program for officers attending Annual Recall Training. Officers were tasked to complete more functional exercises that utilized and engaged their own ability. This change has resulted in higher participation and less injuries to the officers than before.

Administrative Bureau

In June 2010, the Training Division completed the indoor firing range. The range provides 30 firing points, office space, and storage for weapons and maintenance areas.

In August, the first annual firearms qualification for officers began. The indoor range provides a venue where officers can practice in night conditions with controlled lighting. The secured enclosure offers increased safety to the public as any unintentionally fired rounds are contained within the structure.

In preparation for the Asia-Pacific Economic Cooperation summit, the training staff completed civil disturbance instruction. This will enable the Training Division's personnel to instruct the rest of the department's sworn personnel on civil disturbance response.

SUPPORT SERVICES BUREAU

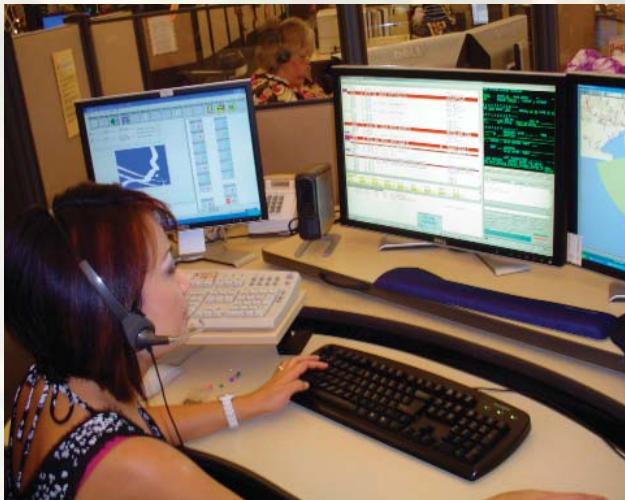

Support Services Bureau

Communications Division

The Communications Division is the largest Public Safety Answering Point (PSAP) in the state and serves as the PSAP for all 9-1-1 calls on Oahu. In 2010, the division's 9-1-1 Section received 900,345 calls for service, of which 668,814 calls (74 percent) were for police services. These operators routed 51,724 calls to the Honolulu Fire Department, 72,932 calls to the Honolulu Emergency Services Department, and 106,875 calls for miscellaneous services during 2010.

The Communications Division was recognized at the 2010 Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA), conference in Dallas, Texas, and awarded the CALEA Public Safety Communications Agencies reaccreditation certification on March 27, 2010. The department was named a flagship agency by the CALEA for the second time. This award acknowledges the division's exemplary achievements and expertise as a public safety communications agency.

For the first time in recent history, the division had a 100 percent retention rate of its trainees who graduated as police radio dispatchers. This was accomplished in part by ensuring that the trainers followed their respective trainees for the entire year of training.

The division participated in a safety fair on May 8, 2010, at Pearlridge Shopping Center to educate the public in the role of the Communications Division and the proper use of the 9-1-1 system.

The division also participated in two job fairs along with the Human Resources Division to inform potential applicants about the advantages of working in public safety communications.

Information Technology Division

The Information Technology Division (ITD) provides information technology and research support services to the department. Emphasis is placed on technology that enhances efficiency, effectiveness, and service to its customers. Patrol operations are supported by a comprehensive mobile computing system that combines data dispatching with access to extensive information resources for officers in the field.

During the year, the ITD created a new position to support intelligence-led policing and the department's efforts to reduce crime. Significant improvements were made to the department's intranet to facilitate dissemination and collaboration of crime information for more efficient investigations and crime prevention.

The department's Uniform and Equipment Committee approved specifications to allow subsidized hybrid-powered police vehicles.

Support Services Bureau

The first hybrid-powered vehicles entered the department's fleet in 2010.

The Honolulu Police Department (HPD) implemented a crime mapping service to the public that can be accessed via the HPD internet Web site. The site allows the public to view five different types of property crimes (e.g., burglaries, thefts, car thefts, car break-ins, and graffiti) in the vicinity of any Oahu address. The service is still a work-in-progress and is in the prototype stage. The ITD is continually working to improve this service to the public.

Records and Identification Division

The Records and Identification Division maintains records for all reported incidents requiring police response. It is also responsible for the service of warrants and penal summonses, firearms registrations, alarm registrations, handling of evidence and found property, and fingerprint examining.

The division continues to fine-tune the Records Management System to meet departmental needs. Automated field reporting via mobile data computers and desktop patrol computers are required islandwide. The availability of improved software and hardware has brought the department closer to an entirely paperless process.

The Records Unit is responsible for the maintenance and safekeeping of all police reports and the reproduction of reports for requesting parties. In 2010, unit personnel received over 30,480 requests and reproduced more than 602,000 pages. The revenue generated via the fees charged for copies of police reports totaled \$60,732.25.

Utilizing the recently implemented LiveScan for registering sex offenders, personnel of the Identification Unit processed 1,778 sex offender registrations in 2010. Registration information is transferred to the Hawaii Criminal Justice Data Center, State Department of the Attorney General, and populates the Criminal Justice Information System.

Identification technicians examined 5,672 latent fingerprint cards (prints recovered at crime scenes) to determine if they were viable to run through the Automated Fingerprint Information System for suspect identification. They also serviced 1,200 latent print comparison requests (to be compared with arrested persons' prints on file) for suspect identification.

Telecommunications Systems Section

The Telecommunications Systems Section (TSS) provides islandwide radio communications and technical support for the Honolulu Police Department (HPD). In addition, the TSS maintained approximately 5,000 mobile and portable radios, 400 fleet white car MDC equipment, 1,300 subsidized police vehicles emergency blue lights and sirens, and 160 laser speed detection guns.

As of April 1, 2010, the TSS no longer maintained the City and County of Honolulu's 800 MHz public safety radio communications infrastructure. The City Department of Information Technology was tasked to fulfill this maintenance role. However, the TSS continues to support, respond, and address all of the HPD's 800 MHz radio issues and projects.

Support Services Bureau

In April 2010, the second phase of the 800 MHz radio rebanding project commenced. Many hours were spent reprogramming each officer's portable radio, the mobile radios in all fleet and subsidized patrol vehicles, and the district stations' console radios to eliminate cellular telephone interference from the 800 MHz frequency band.

On July 4, 2010, the Homeland Security Office of Emergency Communications conducted an evaluation on the various interoperable communications capabilities used by multi-jurisdictional agencies (city, state, and federal). The HPD was the lead agency in coordinating this event. The TSS communications unit leader and technicians, along with the tactical police radio dispatchers, participated in the evaluation.

Vehicle Maintenance Section

The Vehicle Maintenance Section (VMS) operates out of the Alapai headquarters and Waipahu training academy. This section is responsible for issuing and receiving patrol vehicles; fueling, waxing, and detailing the department's vehicles; and islandwide repair and maintenance of approximately 600 pieces of equipment that includes patrol cars, solo motorcycles, support vehicles, trailers, and off-road equipment.

During 2010, the VMS received 116 replacement patrol vehicles and initiated the process to procure 32 additional 2011 model BMW police motorcycles. This section successfully coordinated the installation and implementation of the Automated Fuel Management System (AFMS) at the Kahuku and Kapolei police stations. This brings the department's AFMS project to 50 percent completion. The five remaining stations are expected to be completed in 2012.

SPECIAL FIELD OPERATIONS BUREAU

Special Field Operations Bureau

Asia-Pacific Economic Cooperation Planning Group

The Asia-Pacific Economic Cooperation (APEC) Planning Group was created in January 2010 to plan and prepare for the Honolulu Police Department's (HPD) role in the 2011 APEC

meetings. The President of the United States of America and 20 other member economies of the APEC are expected to attend the meetings along with nearly 20,000 other participants: support staff, security, media, and business leaders. The primary objective of the group's effort is to facilitate a safe, uninterrupted event with minimal inconvenience to the public.

In June 2010, the APEC Planning Group teamed up with the U.S. Department of State to present a Diplomatic and Consular Immunities seminar for HPD personnel as well as representatives of state and

federal agencies. The seminar covered interaction with foreign officials, investigation and enforcement concerns involving diplomats, and verification of diplomatic and consular immunity. The exchange of information and collaborative training will help to ensure better customer service when questions and concerns from the public arise.

Homeland Security Division

The Homeland Security Division (HSD) supports command operations during major events; establishes and facilitates interagency communications; coordinates site and threat assessments; and acquires and manages resources to prevent, respond, and recover from natural disasters and acts of terrorism within the City and County of Honolulu.

The HSD also participates in and coordinates joint training exercises with other federal, state, and local agencies to strengthen our ability to work efficiently with our first responder partners.

As of January 24, 2010, the Civil Defense Coordinator (CDC) position has been assigned to the HSD. As such, the commander of the HSD has assumed the duties and responsibilities of the CDC. Designated as a division in 2007, the HSD

continues to grow and establish itself in the area of catastrophic incident response. Grant applications obtained by the HSD for 2010 resulted in the Honolulu Police Department being awarded \$1,350,000 in Homeland Security funds. These funds were requested to support security equipment

Special Field Operations Bureau

(\$600,000) for the Alapai headquarters, communications equipment (\$500,000), and personal protective equipment (\$250,000) for personnel.

Specialized Services Division

The Specialized Services Division (SSD) provides special weapons and tactical (SWAT) support to departmental elements as well as state and federal law enforcement agencies. It is also responsible for tactical intervention in barricade, hostage, and sniper incidents. In addition, the SSD provides entry and security for other divisions that execute search warrants and serves temporary restraining and protective orders in all cases in which the respondent is suspected of possessing firearms.

The SSD also assists the U.S. Secret Service and Department of State with dignitary protection, participates in fugitive searches, assists patrol districts by saturating high crime areas, and oversees the Witness Security and Protection Program in cooperation with the State Department of the Attorney General.

Community partnerships were enhanced in 2010 when the division performed SWAT demonstrations, 47 canine demonstrations, 16 bomb demonstrations, and 22 helicopter demonstrations for schools and community organizations.

One demonstration that touched the officers and enhanced community relations was a demonstration for an 11-year-old Make-A-Wish recipient visiting from the U.S. mainland whose wish it was to meet a SWAT officer in Hawaii.

In 2010, the SSD implemented improved technology when it obtained new equipment in preparation for the 2011 APEC meetings.

The division obtained three additional bomb detection canines from the Von Liche Kennels to enhance the Canine Detail when responding to multiple incidents. They also obtained one Talon wireless robot and one "Dragon Runner" robot to enhance the Bomb Detail when responding to multiple incidents.

The division supported patrol and other divisions requesting tactical responses to

Special Field Operations Bureau

high-risk situations and successfully concluded the incidents with no injury or death to hostage, civilian, police, or suspect. There were 6 SWAT call-outs (25 percent decrease from 2009), 33 bomb call-outs (21 percent decrease), 60 canine call-out assists (54 percent decrease), and 351 helicopter call-out assists (29 percent decrease).

Transit Office

Established in June 2010, the Honolulu Police Department's Transit Office is the department's liaison to the Rapid Transit Division (RTD), City Department of Transportation Services, during the planning and construction of the Honolulu High-Capacity Transit Corridor Project.

The project's 20-mile elevated rail transit line will connect West Oahu with downtown Honolulu and Ala Moana. The line will consist of 21 stations along the route, including a maintenance and storage facility in Waipahu.

The Transit Office, together with the Safety and Security Oversight and Review Committee, participated in the review of the Safety and Security Certification Plan to ensure that security issues were properly addressed.

The office assisted the RTD system safety and security manager in coordinating homeland security activities with the Transportation Security Administration, to include the development of emergency response procedures, transit operations familiarization training curricula, and emergency exercises.

2010 Hall of Fame Inductee

Detective Lucile Abreu

Honolulu Police Detective Lucile Abreu was inducted into the Honolulu Police Department's (HPD) Hall of Fame on May 15, 2010.

Ms. Abreu was initially hired under the civil service rank of "Policewoman" in 1953. At that time, women were given lower paid assignments working with juvenile offenders and women did not have chances for promotion. Although Detective Abreu first passed the sergeants test in 1957 and continued to pass the promotional examination with the highest score, she was bypassed for promotion in favor of men.

Due to the discrimination that she and other women faced at the time, she felt compelled to file a federal discrimination lawsuit that expanded into a class action suit. In a settlement with the City and County of Honolulu, the HPD agreed to hire women recruits and abolished the minimum height requirement of 5 feet 8 inches for all officers.

Eventually, Ms. Abreu was promoted to detective in 1975 and assigned to the Criminal Investigation Division. Her last assignment was in the Sex Crimes Unit where she worked until her retirement in 1978.

Previous Hall of Fame Inductees

Chief
Francis A. Keala
Inducted: May 17, 2007

Chief
Daniel S. C. Liu
Inducted: May 17, 2007

Sergeant
Edwin I. Adolphson Jr.
Inducted: May 17, 2007

Sister
Roberta Julie Derby
Inducted: May 17, 2007

Detective
Chang Apuna
Inducted: May 15, 2008

Officer
Roger Piwowarski
Inducted: May 15, 2008

Detective
John Jardine
Inducted: May 16, 2009

The HPD's Hall of Fame was established on May 17, 2007, to honor those who have distinguished themselves through their outstanding contributions and service to the department and the community.

Major statistics are presented on pages 48 through 61.

For purposes of presentation, statistics are categorized in different ways. For instance, offenses are counted in two ways: actual and reported.

“Actual offenses” are defined according to the standards of the Uniform Crime Reporting program of the Federal Bureau of Investigation. Counts of actual offenses are a common measure of crime. The data that appear on pages 48 to 53 are based on actual offenses.

“Reported offenses” include unfounded complaints, which are screened out in the counting of actual offenses. Counts of reported offenses are a common measure of workload. The data on pages 54 through 61 of this section are based on reported offenses.

Crime Index 2001 - 2010

Seven serious offenses are used to define trends and make comparisons across the nation. These offenses are called index crimes, and data about them are drawn from the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) program. The offenses consist of four violent crimes (murder, forcible rape, robbery, and aggravated assault) and three property crimes (burglary, larceny-theft, and motor vehicle theft).

During 2010, a total of 34,216 index crimes occurred in Honolulu, a decrease of 5 percent from 2009. The number of index crimes are still lower than the number of crimes recorded in the mid-1970s. Violent crimes increased by less than 1 percent, with the number of murders accounting for the largest percentage increase (36 percent). Property crimes decreased by 5 percent, with the number of motor vehicle thefts having the largest percent increase (5 percent).

Offenses	2001	2002	2003	2004	2005
